

MANOJ AASARE

Pune, Maharashtra, India

Phone: +91-9209728086 — manojaasare88@gmail.com — [linkedin.com/in/manojaasare](https://www.linkedin.com/in/manojaasare)

Professional Summary

Passionate cybersecurity professional with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT). Skilled in identifying and exploiting security vulnerabilities in web applications and networks using industry-standard tools including Burp Suite, Nmap, Nessus, and Metasploit. Proficient in discovering critical vulnerabilities such as SQL Injection, XSS, CSRF, and RCE, with expertise in creating comprehensive security reports aligned with OWASP Top 10. Active participant in CTF competitions and bug bounty programs, committed to continuous learning and ethical security practices.

Professional Experience

Cyber Security Analyst

January 2026 – Present

RNR Consulting Pvt. Ltd.

Delhi, India

- Conduct comprehensive web application security assessments aligned with OWASP Top 10 methodology
- Identify and validate critical vulnerabilities including XSS, SQL Injection, CSRF, IDOR, and authentication flaws
- Perform manual penetration testing using Burp Suite, Nmap, and Nessus to assess application security posture
- Analyze real-world attack vectors, assess security impact, and provide actionable remediation recommendations
- Document security findings and create detailed vulnerability assessment reports for client deliverables
- Apply ethical hacking methodologies following industry best practices and professional security standards

Security Analyst Intern

August 2025 – February 2026

ASD Cybernetics

Kota, Rajasthan, India

- Executed vulnerability assessments and supported penetration testing activities on web and network systems
- Identified OWASP Top 10 vulnerabilities using automated and manual testing tools including Burp Suite, Nmap, Nessus, and OpenVAS
- Assisted in incident response procedures, log analysis, and SIEM monitoring to detect security threats
- Created comprehensive technical documentation and security hardening guides for routers, servers, and web applications
- Contributed to security awareness initiatives and vulnerability remediation processes

Education

Dr. Babasaheb Ambedkar Marathwada University

2022 – 2026

Bachelor of Science in Computer Science

Aurangabad, India

ASD Academy

2024 – October 2025

Diploma in Cybersecurity

Kota, Rajasthan, India

Technical Skills

Security Tools: Burp Suite, Nmap, Nessus, Metasploit, Wireshark, Nikto, WPScan, Invicti, OpenVAS

Web Technologies: HTML, CSS, JavaScript, React.js

Operating Systems: Linux (Kali Linux), Windows

Security Domains: Web Application Security, Network Security, API Security, Vulnerability Assessment, Penetration Testing

Frameworks & Standards: OWASP Top 10, Ethical Hacking Methodologies, Security Assessment Frameworks

Additional Skills: Incident Response, Log Analysis, SIEM Monitoring, Security Documentation, CTF Competitions, Bug Bounty

Certifications

Certified Ethical Hacker (CEH)

VAPT Certified Professional

Professional Activities

Bug Bounty Hunter: Active participant in bug bounty programs, identifying vulnerabilities in real-world applications

CTF Participant: Regular participation in Capture The Flag competitions to enhance practical security skills
